

Registration:

Registration can be made at the symposium home page: www.uni-due.de/gus

Registration Fee:

Regular Participant	200 €
Student	50 €
Accompanying person	50 €
Participant (Ukraine or CIS)	100 €
Student (Ukraine or CIS)	20 €
Accompanying person (Ukraine or CIS)	50 €

Registration after August 1, 2008: These amounts will increase by 50 €.

The registration fee includes access to the scientific sessions, printed congress materials, coffee and refreshments during the breaks, lunch and the conference dinner.

Venue:

University Duisburg-Essen
Campus Essen
45141 Essen

Information:

Prof. Dr. Matthias Epple
Inorganic Chemistry
University of Duisburg-Essen
45141 Essen, Germany
E-Mail: gus@uni-due.de

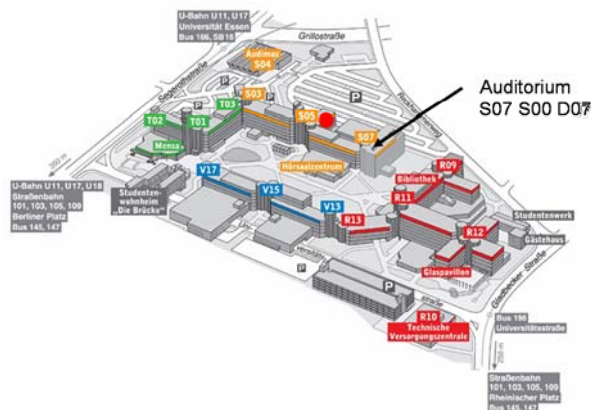

Scientific Symposium Secretary

Mrs. Barbara Nota
Inorganic Chemistry
University of Duisburg-Essen
45141 Essen, Germany
E-Mail: gus@uni-due.de
Fax: +49 (0)201 183 2621
Tel.: +49 (0)201 183 2402

1st Announcement - Call for Abstracts

Scope of the Symposium

The long-standing collaboration between German and Ukrainian scientists shall be fostered and developed by a joint symposium on the exciting fields of nanoscience and nanotechnology. Besides an exchange of scientific results, special emphasis is laid on the participation of industry and funding organizations. Practical applications of nanotechnology are in the focus of this symposium, including the transfer into commercial products.

All fields of nanoscience and nanotechnology will be covered, e.g.

- bio-nanotechnology
- nanotechnology and information technology
- nanotechnology and energy
- nanomaterials
- analytical tools for nanotechnology
- impact of nanotechnology on the society

Oral and poster contributions from all countries are invited for all fields related to nanoscience and nanotechnology.

The conference is supported by the German Ministry of Science and Technology and the Ukrainian Academy of Sciences.

The City of Essen

Essen is located in the center of the Ruhr area, easily accessible by international trains, international buses, and airplane. The international airport of Dusseldorf is about 30 km away and easily accessible by train connections. Essen offers a variety of cultural venues, like an opera, museums and musicals. It will also be the Cultural Capital of Europe in 2010. The University of Duisburg-Essen is one of the major German Universities with about 35,000 students, comprising most scientific disciplines. Nanoscience is a major research area at Duisburg-Essen University, coordinated by the *Center for Nanointegration Duisburg-Essen (CeNIDE)*. You can find further information on the following webpages:

www.essen.de (about the city of Essen)

Abstracts:

Abstracts of talks and posters will be printed in a bound volume and be available at the symposium. Abstracts should be submitted in A4 format (1 page) with Times Roman font (14 pt) and borders of 2.5 cm on each side. Please submit the abstracts as attachment via e-mail in Microsoft Word format to

gus@uni-due.de

Deadlines:

- Submission of abstracts for oral presentations: June 30th, 2008
- Notification of acceptance for oral presentations: July 15th, 2008
- Submission of abstracts for poster presentation: July 31th, 2008
- Reduced conference fees: August 1st, 2008
- Notification of acceptance for poster presentation: August 15th, 2008
- Conference: September, 22th – 25th, 2008

The official symposium language is English.
