

Funding opportunities for international students

Since 2007, highly qualified students who want to participate in the International Master of Science programme Water Science can apply for a fellowship in the IPSWaT program *via the university* (details at <http://www.internationales-buero.de/de/777.php>). If you want to apply for this fellowship you need to submit the following *additional* documents:

- Letter of motivation explicitly explaining why you want to participate in the Master of Science programme Water Science *and* in the IPSWaT program
- Short description of planned or existing participation in bilateral cooperations
- One or better two letters of recommendation for the program by your academic teachers (not more than 2 pages each)
- A statement that you only apply for IPSWaT via the University of Duisburg-Essen. Otherwise, you need to explicitly list the other universities.

Furthermore, you need to apply to the university at the latest by *February 1* for the course starting in October.

CHINESE students **please note**: You have to provide an APS certificate along with your application documents.

For information on *further funding opportunities* several WWW lists exists, for example at the homepage of another international Master programme at the Technical University of Darmstadt (at <http://www.trophee.tu-darmstadt.de/inhalt/scholarship.tud>).
