Participants needed for a linguistic study!

Do you speak more than one language?

You are invited to take part in a study which investigates how bilingual persons living with Alzheimer's disease use both of their languages in short interview scenarios.

We are looking for both **speakers of English as a second language** and **native speakers of English** (who are fluent in another language). Participants at any stage of **Alzheimer's Dementia** are encouraged to join the project.

This project is supported by

Open-*Minded*

What to expect

What?

Personal Interviews
You will have a 30-45 minutes conversation with the researcher and a relative or caregiver. This is not about testing knowledge, but about your experiences in life.

Data?

Personal Data
You will be given a questionnaire about when and how you learned the languages you speak and how well you speak them.

When?

Timeframe
The interviews will be held in April/ May 2019. However, if you have any questions or doubts you can address them at any time.

Privacy?

Personal Information
Your answers will be written down and anonymized. That includes the change of names, cities and all other information that could lead to your identification. Your questionnaire can only be connected to your answers, not to your name. You will receive a copy of the privacy and data consent form.

Contact

Your contact person
I am a PhD candidate at University of Duisburg-Essen in Germany. I studied English, Spanish, and German, my mother tongue and I am interested in how people use languages. I am looking forward to answering your questions.

Thank you for your interest in participating!
