

Courses of Studies: Civil Engineering (B.Sc. und M.Sc.)

Module:

Urban Water Management

Courses of Studies: Civil Engineering, Master

1. or. 3.
Sem.
(SS)

Urban Water Management 6
Environmental laboratory work

Environment 4
Modeling of environmental processes

Urban Water Management 4
Operation of urban water management facilities

Environment 1
Environmental law

2. Sem.
(WS)

Urban Water Management 3
Advanced techniques in urban water management

Urban Water Management 5
Biology and chemistry in urban water management

Environment 3
Life cycle assessment of constructions and equipment

Courses of Studies: Civil Engineering Bachelor

6. Sem.
(SS)

Urban Water Management 2
Design of urban drainage systems

5. Sem.
(WS)

Urban Water Management 1
Principles of urban water management and water chemistry
