

CRC 1430/BIOME Molecular Cell Biology Joint Lecture Series – BIOME MCB Seminar Series – 1st Half Year 2022

18.01.2022	BIOME Seminar Zoom			Roman Rupp	<i>Molecular insights into the seminal plasma EVs (SP-EVs) driven post-testicular maturation</i>
				Theo Marteau	<i>cancelled</i>
08.02.2022	BIOME Seminar Zoom			Yanjie Sun	<i>Functions of POLQ and RAD52 genes on the repair of DNA double strand breaks throughout the cell cycle</i>
				Mathias Menzel	<i>Differentiation of Pluripotent Stem Cells towards Blood Stem and Progenitor Cells directed by HOX Transcription Factors</i>
01.03.2022	BIOME Seminar Zoom			Savina Abraham-Pol	<i>Characteristics of Golgi stress response</i>
				Razan Hessenow	<i>Contributions of Skp2 to the DNA damage response (DDR)</i>
28.03.2022	Guest Speaker - Zoom	A14	Grüner	Patrick Neuhöfer, Stanford University	Acinar cell clonal expansion in pancreas homeostasis and carcinogenesis
05.04.2022	BIOME Seminar Zoom			Harpreet Kaur	Cloning, purification, and characterisation of glucocerebrosidase
11.04.2022	Guest Speaker - Zoom	A07	Nalbant	Buzz Baum, London	Evolution of cell division: from archaea to eukaryotes
03.05.2022	BIOME Seminar Zoom			Yanjie Sun	<i>Functions of POLQ and RAD52 genes on the repair of DNA double strand breaks throughout the cell cycle</i>
				Mathias Menzel	<i>Differentiation of Pluripotent Stem Cells towards Blood Stem and Progenitor Cells directed by HOX Transcription Factors</i>
30.05.2022	Guest speaker – in person	A03	Meyer, Ehrmann	Alwin Köhler	TBA
07.06.2022	BIOME Seminar Zoom			Savina Abraham-Pol	<i>Characterization of the Golgi stress response</i>
				Noha Awad	<i>Functional characterization of OR51 B5, OR1 G1 and OR10S1 in human bronchial epithelial cells to investigate their potential as drug targets for chronic lung diseases</i>
20.06.2022	Guest Speaker – in person	A03	Meyer	Petra Beli	TBA
18.07. - 22.08.2022	CRC 1430 Summer Break
