

Program

9.15-9.30 a.m.	<i>Opening remarks</i>	11.00-11.15 a.m.	<i>Coffee break</i>	Abdullah Dauood Institute of Medical Microbiology, University Hospital Essen
9.30-10.20 a.m.	<i>External speaker</i>	11.15-12.05 p.m.	<i>External speaker</i>	
	Motility and directed migration of primordial germ cells in zebrafish Prof. Dr. Erez Raz Institute of Cell Biology, University of Münster		Macromolecular assemblies and the reorganization of cytoplasm during stress Dr. Simon Alberti Max Planck Institute of Molecular Cell Biology and Genetics, Dresden	15.40-16.00 p.m. <i>Coffee break</i> 16.00-16.20 p.m. <i>Student talk</i> Molecular mechanisms of age-dependent thyroid hormone action in target tissues
10.20-10.40 a.m.	<i>Student talk</i>	12.05-13.00 p.m.	<i>Lunch break</i>	Kathrin Engels Clinic for Endocrinology, University Hospital Essen
	Elucidating the role of PP1 subunit Inhibitor-3 in mitosis Jonas Seiler Molecular Biology Laboratory I, University of Essen	13.00-14.30 p.m.	<i>Poster session</i>	
		14.30-15.20 p.m.	<i>External speaker</i>	16.20-17.10 p.m. <i>External speaker</i> Control and consequences of IL-6 receptor ectodomain shedding
10.40-11.00 a.m.	<i>Student talk</i>		Feedback control mechanisms in cell division Prof. Dr. Andrea Musacchio Max Planck Institute of Molecular Physiology, Dortmund	Prof. Dr. Jürgen Scheller Institute of Biochemistry and Molecular Biology II, University of Düsseldorf
	Identification of gene dosage dependent tumor suppressor genes in MDS Antje Zickler Transfusion Medicine, University Hospital Essen	15.20-15.40 p.m.	<i>Student talk</i>	ca. 17.10 p.m. <i>Closing remarks, followed by dinner</i>
			Characterization of an unknown Virus which multiplies inside free-living Amoeba	

Poster session

Rouven Hecht, Molecular Biology II, Uni Essen

A new role for the Inhibitor of Apoptosis Protein XIAP

Katja Jochmann, Developmental Biology, Uni Essen

Heparan sulfates in growth plate maintenance and Osteoarthritis

Nada Jamjoom, Transfusion Medicine, UK Essen

Comparison of Immunomodulatory Activity of Exosomes Enriched from Different Conditionally Immortalized Mesenchymal Stem Cell Lines

Sinem Karaterzi, Paediatrics II, UK Essen

Non-immunological effects of immunosuppressive agents (CSA, FK506 & MMF) on cytoskeletal stability in human podocytes

Helena Rakov, Clinic for Endocrinology, UK Essen

Molecular mechanisms of gender-dependent thyroid hormone action in target tissues

Julia Westermeier, Molecular Biology I, Uni Essen

Exploring function and dynamics in the human VCP/p97-cofactor network

Symone Vitoriano, Transfusion Medicine, UK Essen

Identification and characterization of novel hematopoietic transcription factors

Venue

Unperfekthaus Essen

Friedrich-Ebert-Straße 18
45127 Essen

Annual Retreat

Graduate School of Biomedical Sciences (BIOME)

Core: Genetics and Cell Biology

3rd December 2013

Unperfekthaus Essen

Acknowledgements

We gratefully acknowledge financial support by the Graduate School of Biomedical Sciences, Essen.

We thank our external speakers for accepting the invitation and participating in our retreat.
