

NAME: _____

BIOME Seminar - Cellular & Molecular Immunology, Tumor & Signalling, Infectious Diseases

Summer 2026

Deichmann Auditorium *, Monday 17:00 Uhr s.t.

(* see exception)

Date	Name	Chair	Room	Topic	Signature
13.04.2026	Prof. Dr. Silvia Vega-Rubín-de-Celis Universitätsklinikum Essen	Jillian Brown Murad Muhammad	Deichmann Auditorium	Autophagy modulation for cancer treatment	
27.04.2026	Dr. Florian Perner Medizinische Hochschule Hannover	Paniz Salimitari Mariana Ferreira Pissarra	Deichmann Auditorium	Menin-inhibition in AML: Resistance and persistence limiting long-term responses	
11.05.2026	Dr. Jianxu Chen Leibniz-Institut für Analytische Wissenschaften	Nelson Niski Tim Milfeit	Deichmann Auditorium	tba	
01.06.2026	Prof. Dr. Stephan Ludwig Universität Münster	Yue Yu Lea Allerchen	Deichmann Auditorium	Towards a novel host-targeted strategy against hyperinflammatory respiratory viral diseases	
15.06.2026	Prof. Bin Qu Universität Osnabrück	Bin Cheng Zhongsheng Liu	Deichmann Auditorium	Tuning NK cell cytotoxicity for cell therapy through synthetic cells and mechanical signal sensing	
29.06.2026	Dr. Philip Kolb Universitätsklinikum Freiburg	Leandra Jürgens Annika Kruppa	Deichmann Auditorium	Breaking barriers – How antibodies can help a virus across the placenta during pregnancy	
13.07.2026	Prof Dr. Tobias Bald Universität Bonn	Fatemeh Gorbani Palaniappan Ramesh	Audimax (Klinikum)	Cellular immunotherapies meet AI-based protein design: New opportunities for the treatment of cancer?
