Flow chart with reference to the Coronavirus Testing and Quarantine Ordinance (CoronaTestQuarantäneVO) for NRW dated 11 March 2021

**Definitions**

1 Close personal contact means: contact >15 minutes with < 1.5 m distance and one or both parties not wearing a face mask or contact in poorly ventilated rooms over an extended period of time.

2 There are three different types of test procedures for SARS-CoV-2: molecular biological testing ('PCR tests'); PoC antigen testing ('rapid tests'), which is carried out by medically trained individuals; and self-testing.
