

# Good Scientific Practice for (post) doctoral researchers

# G S P

Good Scientific Practice

**Lecturer: Dr. Christian Dumpitak**  
iGRAD, HHU Düsseldorf

**Organizer: CRC1093**

**Registration and Information:**  
[crc1093@uni-due.de](mailto:crc1093@uni-due.de)

**Venue: T03 R01 C24, UDE, Campus Essen**

**Monday, 4th of June 2018, 9:30 am – 5:30 pm**

The workshop is a fundamental introduction to the principles for safeguarding good scientific practice as proposed by the Deutsche Forschungsgemeinschaft (DFG). It focuses on the perspectives of (post)doctoral researchers by introducing and discussing the following topics amongst others:

- ❖ **Basics of responsible conduct and ethical principles in research**  
Values, virtues, potential problems and conflicts in scientific contexts
- ❖ **Data collection and research documentation**  
Publication process / Supervision / Organizational culture / Procedures in case of suspicion and relevant contact persons
- ❖ **Important specific responsibilities**  
Important issues prior to any data collection: Authorization, permission or qualification relevant research

In cooperation with

**iGRAD**

Interdisciplinary Graduate and  
Research Academy Düsseldorf

This Workshop is supported by

**DFG** Deutsche  
Forschungsgemeinschaft
