Open-Minded

Located in the heart of the Ruhr metropolis, the University of Duisburg-Essen (UDE) is one of the largest universities in Germany. Its broad spectrum of subjects ranges from the humanities, social sciences and education to economics, engineering, natural sciences and medicine.

Since its foundation in 2003, the UDE has evolved into a world-renowned university for research – a fact documented by several top positions: In the Times Higher Education-Ranking it takes the 14th place among the world’s 250 best young universities and ranks first among the German universities evaluated. The UDE is also way ahead in the cited scientific publications: It ranks 5th nationwide and 97th in an international university comparison.

With its innovative and digitally supported teaching and learning concepts, the UDE is an attractive place for research-based teaching and a model for active educational justice.
