

Virtual Summer School 2020

One week of interdisciplinary skills
training for doctoral researchers

17–21 August 2020

Successful academic careers require not only outstanding research results and a deep level of expertise in the respective academic fields, but also a set of **transferable skills**.

The GC Plus Summer School supports **doctoral researchers of the University of Duisburg-Essen** with training of these key competencies. It aims at strengthening your self-confidence and coping skills, thus enabling you to better **communicate** your achievements within the academic community and to strategically develop your own **career path**.

This year, all workshops will take place as **online courses**. Language of all offers will be English, aiming at cultivating and raising awareness for intercultural and interdisciplinary issues.

Please register from 6 July to 26 July 2020.
