

# GC Plus Summer School 2021

## 23–27 August 2021

### A whole week of interdisciplinary skills training for doctoral researchers

Successful academic careers require not only outstanding research results and a deep level of expertise in the respective academic fields but also a set of **transferable skills**.

Our GC Plus Summer School supports **doctoral researchers at the University of Duisburg-Essen** with training of these key competencies. It aims to strengthen your self-confidence and coping skills, thus enabling you to better **communicate** your achievements within the academic community and strategically develop your **career path**.

The language of all offers will be English, aiming to cultivate and raise awareness for intercultural and interdisciplinary issues and to address in particular doctoral researchers with an international background. All workshops will take place as **online courses**.

## Participation and Registration

Our Summer School is aimed at **doctoral researchers of the University of Duisburg-Essen** of all research fields. Participation is free of charge and you will receive a certificate of participation for each workshop afterwards.

You can **arrange your schedule individually** and also register for single days only. It is thus not mandatory to participate on all days of the week.

Please note that the **places per workshop are limited and your registration is binding**. To allow as many doctoral researchers as possible to participate in our Summer School, the final allocation to the workshops will be made after the registration deadline. Therefore, please only register for workshops that you will actually be able to attend if you are offered a place.

**Register here until 8 August:**
