in cooperation with
The Faculty of Education (UKSW)

The
International Herbart Society

will have its 6th international and interdisciplinary conference

On
»Education and Bildung in political systems«

At UKSW / Warsaw (Poland)

From April 6th to 8th 2011.

You are kindly invited to submit proposals (either for discussion papers or for lectures) for the following topics:

- 1. Education and Bildung in political systems**
- 2. Political Dimensions of Education and Bildung**
- 3. The „political“ Herbart**

The conference will offer the opportunity to have an intensive exchange of ideas and research results from different disciplinary perspectives on an international level. Contributions may either deal with Herbart's theory directly or may use political theories in order to analyze Herbart's position in broader contexts: both perspectives are very welcome. Please submit your suggestions up to August 31st 2010 and indicate whether you would like to give a lecture or present a discussion-paper in a workshop.

The International Herbart Society as well as Cardinal Stefan Wyszyński University are especially committed to the promotion of up-and-coming young scientist – for this reason younger researchers, both female and male, are explicitly invited to participate in this outstanding opportunity of international exchange in educational science.
