General hints

- ¹ Should it be a decentralized device, the financing must be secured. All decentralized costs will be charged. Please contribute as fully as possible to the usage costs. To do this, use funds from the basic budget, incentive funds and/or third-party funds. If necessary, also take into account the guidelines for use of your of your third-party funder or project sponsor. ICAN is not responsible for the correct use your funds.
- ² Please be fully informed before carrying out the work/measurements of all hazards/risks and security measures which are to be considered with regard to the material/samples. Do not send dangerous samples with the internal mail! For the avoidance of doubt, contact an employee of ICAN in advance.
- ³ Economic activities are all work/measurements that are carried out for non-university users, persons/institutes/companies etc., unless this is done in the form of a research cooperation. University-external users include the associated institutes of the University of Duisburg-Essen. Please clarify in advance, if the measurements you plan for non-university users are part of a research collaboration. In case of doubt, contact "Dezernat für Wirtschaft und Finanzen".

Unless otherwise agreed, sample material will be picked up by the user at the latest 30 days after completion of the measurements.

Already paid usage costs can not be refunded.
