Course Pre-Selection

You have been nominated for a stay at the UDE. As part of your application, you should complete and upload this form with a preliminary list of the courses that you would like to study at the UDE.

The official university course catalogue for the Winter Semester 2022/23 has not been published yet but you can ask your Faculty if a course list is available. If no course list is available, please use the course catalogue from the previous winter semester as a guide. There is no guarantee that the same courses will be offered in future but this pre-selection will help the Faculty to process your application before the Online Learning Agreement is prepared (if applicable).

For further information and support with course selection, please ask your Faculty Contact Person using the contact details in your "Application Information" email.
