

Invited Lectures 2014

July 1

Modulation of the immune system by irradiation—impact on the design of multimodal cancer therapies

Dr. Udo Gaipl

Head of Radiation Immunobiology

Department of Radiation Oncology, University Hospital Erlangen

May 27

Cellular responses to DNA double-strand breaks

[Prof. Dr. Markus Löbrich](#)

Technische Universität Darmstadt

Fachbereich Biologie

April 29

Chromatin structure and nuclear architecture in DNA repair

[Dr. Evi Soutoglou](#)

Institut de Génétique de Biologie Moléculaire

et Cellulaire (IGBMC), Strasbourg

April 1

Experimental in vivo models

Prof. Dr. Mechthild Krause

OncoRay - National Center for Radiation Research in Oncology

Medizinische Fakultät Carl Gustav Carus

Technische Universität Dresden

February 25

Replication fork progression and genome maintenance

[Dr. Eva Petermann](#)

School of Cancer Sciences / Institute for Biomedical Research (West)

College of Medical and Dental Sciences - University of Birmingham
