

## **Invited Lectures 2016**

### **May 31**

Dealing with DNA damage during replication  
Prof. Dr. Helle Ulrich  
Institute of Molecular Biology, Mainz

### **May 17**

Biological approaches to improve the outcome of cancer radiotherapy  
Prof. Dr. Kirsten Lauber  
Molecular Oncology  
Department of radiation oncology, LMU Munich

### **April 19**

CSI Düsseldorf - how I got my dream job on a zigzag course  
Dr. Frank Tschentscher, LKA Düsseldorf

### **September 29**

Mechanistic analysis of random integration: towards safe and efficient  
gene targeting in human cells  
Prof. Dr. Noritaka Adachi, Yokohama City University, Japan

### **December 13**

Deciphering endothelial response to enhance radiotherapy efficacy  
[Dr. François Paris](#)  
Head of Radiobiology of vascular and angiogenic laboratory,  
University Nantes
