

## New Perspectives on Digital Health Ethics

*Interdisciplinary Workshop organized by the Personal Analytics Center of Competence at the University of Duisburg-Essen, Germany*

**Date** Thursday, October 11, 2018

**Venue** Gerhard-Mercator-Haus, Lotharstraße 57, 47057 Duisburg, Mercatorsaal

The aim of the workshop is to set the stage for an interdisciplinary discussion of cutting edge issues at the intersection of digital health care and ethics. In two keynote lectures, internationally leading experts will pave the way for in-depth discussions of questions such as: ‘How can the quantified self movement be reconciled with subjective experiences of well-being?’, ‘Do emerging digital health technologies promote social inequality?’.

In two afternoon sessions, young researches will present and discuss their work in progress with the objective of setting new impulses for ongoing research projects.

### Schedule

- 10.00-10.15 Welcome Address and Introduction
