

Download Instruction For FULL PAPER Preparation And Submission

Full paper address: wolfgang.burghardt@uni-due.de

Length of FULL PAPER : 4 pages.

INSTRUCTION FOR FULL PAPER PREPERATION AND SUBMISSION

Please follow the example below.

CONFERENCE TOPIC:

TITLE OF FULL PAPER

Wolfgang BURGHARDT* and Oliver HORST**

*Angewandte Bodenkunde/Soil Technology, FB. Biology and Geography, University Duisburg-Essen, 45177 Essen, Germany, E-mail: wolfgang.burghardt@uni-due.de .

**Institute for Agro-Service, 5883 Munich, Germany

KEYWORDS: abstract, title, author(s), institution, text.

All authors agree to the content of the Full paper. The content is identical to that presented at the conference.

Full paper length should not exceed 4page. Format of page should be A4. Page margins should be 2.5 cm.

Title in capital letters, bold, 14 pt Times new roman font type. Maximum 140 characters inclusive blanks. Title is in the middle justified

Author(s) first and last name should be in bold. Author(s) first and last name and address(es) should be in Times new roman font, 12 pt font, and author(s) last name in capital letters. Add address(es), institution(s) and country(ies) of authors. Add e-mail address of the first author.

Authors name and addresses are in the middle justified.

The text of the FULL PAPER should be in Times New Roman font, 12 pt font, single spaced. Recommended abstract length is 4 pages. Black and white figures may be included if necessary.

3 to 5 KEYWORDS should be added.

Examples for the fom of referenes:

Journals

Popp M, Kinzel H 1981: Change in the organic acid content of some cultivated plants induced by mineral ion deficiency. *Plant Physiol.* **47**, 525-531.

Chapter in a boo

k Cheshire MV 1979: Analysis of hydrolysate for classes of sugar. In: Black CV (ed) *Nature and Origin of Carbohydrates in Soils*, pp 38-44. Academic Press, London.

Abstracts should be submitted as single MS Word DOC file, version not younger than word 2003, as an E-mail attachment. The **address for submission** is: wolfgang.burghardt@uni-due.de

PLEASE CHECK your full paper before submission to be sure that your contribution is clear and well presented.

All authors agree in the publication.

DEADLINE

Until now we received from the 200 presentations of the conference 40 full papers. Therefore we extend the deadline for full paper submission to April 30, 2010. We would be pleased and want to encourage you to send us the total content of your oral and poster presentation.

The volume of full papers will be published as CD and sent to all participants.

CONFERENCE TOPICS:

- (1) Concepts of soil fertility and soil productivity, contents, chances, limitations and contradictions
- (2) Soil quality concepts and indicators with respect of soil fertility and soil productivity
- (3) Soil properties for soil fertility and for use of soil services
- (4) Soil properties for soil productivity and soil investments based services
- (5) Limits of soil fertility and soil productivity by other natural plant production factors than soil
- (6) Short time investments for use of soil productivity
- (7) Soil conservation measures to maintain and improve soil fertility and productivity
- (8) Modelling soil fertility, productivity and conservation
- (9) Soil changes and impacts by shift from use of soil fertility properties to soil productivity properties
- (10) Land management and policy requirements with respect to soil fertility and soil productivity
- (11) Future perspective about the importance of soil fertility and soil productivity with respect of different domains of soil use
- (12) Soil fertility and soil productivity under changing global conditions
- (13) Prospect of soil fertility and soil productivity
- (14) Others about the thematic soil fertility – productivity
