Uniper Trainee Program April 2022 - Risk Management (f/m/d)

Do you want to be part of [#unipersnextgeneration](#) and shape the energy world of tomorrow with us?

What awaits you?

As a Graduate in the Trainee Program, you have the opportunity to get to know different divisions and to gain valuable experience. The 18- / 24-month program based in Germany, with a combination of pre-defined and flexible stations, also gives you the opportunity to gain international experience and work in various business units. The program offers an in-depth insight into our business and enables you to explore and develop your competencies. You will have the chance to bring-in and enhance your social and collaborative skills. You will get personal mentoring and a buddy from day one to ensure you have the best possible foundation for the next step in your career at Uniper.

What will you focus on?

- You will develop a deep understanding of Uniper's international business and corporate environment
- You will learn from experts from many different fields, bring in your own ideas and work on your own projects in collaboration with various stakeholders
- You will develop your technical, operational and interpersonal skills
- You will contribute to the analysis of Credit Risk & Market Risks as well as investment appraisals using state of the art risk management techniques
- You will develop and maintain strong relationships with internal and external stakeholders (i.e. commodity trading desks, sales desks, risk department, legal functions)
- You will contribute to the challenging and exciting development and delivery of the Risk Management team's path on digitalization

What should you bring along?

- A successfully completed degree focusing on Finance, Business Administration, Economics, Engineering or Natural Sciences
- Relevant internships and/or working student placements
- Intercultural experience is crucial, experience abroad is a plus
- Curiosity and openness towards working in an intercultural environment
- Strong sense of responsibility and proactivity
- Ability to use common sense and see the big picture without losing attention to detail
- Pursuit of continuous improvement with a hands-on mentality
- Advanced interpersonal communication skills
- Proficiency in English language, both orally and in writing; German language skills as a plus
