Ecocyte Bioscience - Lohmann Research Equipment - Diacleanshop

Dr. Lohmann Diaclean GmbH  
Oespeler Kirchweg 10  
44379 Dortmund

Tel +49-(0)231-17728540  
Fax +49-(0)231-17728541

Oocytes from the African claw frog (*Xenopus Laevis*) establish one of the major heterologous expression system for ion channels, chemical receptors and transporter system in biological cells. Ecocyte Bioscience, part of Dr. Lohmann Diaclean GmbH, is the worldwide leading company in supporting scientific labs with ready-to-use and preinjected Oocytes from *Xenopus Laevis* as well as offering contract service research in Xenopus Oocytes, with locations in Dortmund (Germany) and Austin (USA).

For our internal research project

**"Improvement of survivability of Oocytes from *Xenopus Laevis* (African claw frog)"**

we are inviting applications for a position as

**PHD student (f/m/d)**

This part time position is limited for 36 months and consist of 20 work hours per week (50% part time).

## Your profile

- Master degree in Biology, veterinarian medicine or related fields
- Substantial skills and practical experiences in experimental techniques covering cell and molecular biology and electrophysiology
- Excellent knowledge of the English language
- Ability to work independently, efficiently and goal oriented
- Competences in MS Windows and MS Office
- Experiences in animal experiments (FELASA certificate advantageous)
- High motivation and curiosity for new techniques and scientific research

## Your responsibility

- Participation in our contract research projects
- Responsible collaboration in applications and reports of regulatory affairs
- Participation in national and international scientific meetings and company exhibitions
- Assistance with all company affairs concerning our *Xenopus* Oocyte business

## We offer

- Cooperative team work
- Flexible working times
- Adequate salary based on customary in our industry
- Company internal and University supervisor at Univ. of Bochum (Receptor Biochemistry, Faculty of Chemistry and Biochemistry, Prof. Dr. Michael Hollmann)
- Possible takeover in regular employment

**Interested?** Submit your application including cover letter (explaining background and motivation), CV, transcripts, and publication record preferably via e-mail as one single PDF file to
