

Student assistant for CMS maintenance and CSS customization

The Language Technology Lab is looking for a student assistant for development and maintenance of the department website.

Requirements

- Experience in setting up and customizing common Content Management Systems (CMS) and web-related technologies
- Experience with the 'Kirby' CMS is a plus
- Knowledge how to work in a Linux-based environment
- Good communication skills (in English or German)

Working Details

- Flexible working time and place (up to 20 hours/week)
- Working conditions are always compatible with semester constraints

Application Procedure

- Application via E-mail to tobias.horsmann@uni-due.de
- Include an overview of your current grades
- Brief summary of experience with CMS and web development

Shortlisted candidates will be invited for an interview.
