

The 4th European sCO₂ Conference

for Energy Systems

sCO₂
europe

NEW DATES!

Prague
Czech Republic

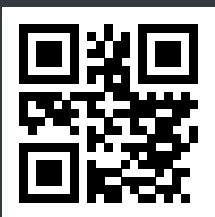

The 4th European sCO₂ Conference in 2021 focusses on supercritical carbon dioxide for energy systems. Scientists and researchers from academia and industry as well as end users are kindly invited to share and discuss the latest outcomes from their sCO₂ related projects. Moreover, this conference is the perfect place to establish new initiatives and cooperations amongst those who are active in this fascinating field of research.

Conference Topics

- Heat Exchanger
- Turbomachines and Cycles
- sCO₂ Applications and Energy Systems
- sCO₂ Experiments and Loops
- Fluid and Material Aspects

Call For Papers

Abstract submission:	17.07.2020
Abstract acceptance:	14.08.2020
Draft paper submission:	03.11.2020
Reviewer comments:	01.12.2020
Final paper submission:	12.01.2021
Final paper acceptance:	01.02.2021
Conference in Prague:	23.-24.03.2021
