AI INTERNSHIP

<https://workatadvantech.eu/vacancy/ai-internship-283/>

YOUR CHALLENGE

You will analyze big data using machine-learning methodology to optimize operations in internal logistics, supply chain and sales distribution domain. As part of the AI Team, you will be involved in all steps of machine learning pipeline, starting from data preparation to modeling and deployment.

You are going to work with international team in a dynamic and innovative atmosphere.

WHO ARE YOU?

You are a Master student looking for a challenging and fun internship or thesis. You have strong knowledge in mathematical modeling and statistical analysis. Basic knowledge of business processes in internal logistics and supply chain, and programming skills in Python/Matlab is a plus. Fluency in English is necessary to work in our international company.

WHO IS ADVANTECH

Advantech is a leader in providing trusted, innovative products, services, and solutions. Advantech offers comprehensive system integration, hardware, software, customer-centric design services, embedded systems, industrial automation products, and global logistics support. In Europe, we are with 500 employees from more than 35 different nationalities. Our mission is to enable an intelligent planet.
