

Registration Form for elective courses in Mechanical Engineering (ISE)

Name: _____

Registration no.: _____

- Branch of study:**
- Water resources and environmental Engineering
 - Mechatronics
 - Production and Logistics

The elective subjects have to be chosen from the catalogue for the branch of studies. Students wishing to obtain a credit for the course Computational Methods may select one course from a list of courses offered by the faculty in which computer methods are applied to mechanical engineering problems.

This selection must be approved by the module and course organiser *prior* to registration to the course. To this end, the course organiser requires a list of all choices for the technical electives and a confirmation signature by the technical elective course lecturer. Forms for gathering this information are available at the Chair of Mechanics, the Chair of transport systems and logistics and under the web address www.mechanik.uni-duisburg.de or www-ipe.uni-duisburg.de/Logistik.
