Please send a short note to [crc1093@uni-due.de](mailto:crc1093@uni-due.de)

Many former PhD students of our university continued their scientific career in institutions and companies worldwide. Every second year these scientists are invited to join our CRC1093 Aspire Afternoon and talk to PhD students and Postdocs about their work, their own career path, reconciliation of family and work life and future opportunities in academic science and industry.
