

**We are
Worldwide Experts
in Water Treatment**

Student Internship or Ba/Ma Thesis Project at OVIVO

Ovivo delivers conventional to **highly technological water treatment solutions for the industrial and municipal markets**. Ovivo is dedicated to **innovation** in an industry that is in constant evolution and offers water treatment solutions that are cost-effective, energy-efficient and environmentally sustainable. It operates in over 15 countries, with 800 employees that are worldwide experts in water treatment.

Ovivo's Electronics Division welcomes Students from the fields of **chemical engineering, environmental engineering, process engineering, chemistry and other related fields** for an Internship or Bachelor/Master Thesis. You will work within our research projects for **ultrapure water and wastewater** in the Innovation Department. The typical tasks are the following:

-  Design and implementation of experiments in laboratory-scale and pilot-scale for industrial water treatment
-  Construction and evaluation of new water treatment technologies (e.g. UV, ion exchange, filtration)
-  Development and Optimization of existing treatment processes and plant components

The work place will be in Switzerland (Witterswil). Master students are preferred. We are looking forward receiving your application! For more detailed information, please contact Dr. Maria Pia Herrling (+41795994235, Mariaia.Herrling@ovivowater.com). Please submit your application directly to Theresia.Wiggenhauser@ovivowater.com.
