

Offers of Kurita Europe GmbH for international students and interns

As a leading water treatment solution provider, we have just opened our new Kurita Europe Technology Center (KETC) in Viersen, Germany, which offers exciting opportunities for interns and students alike.

We offer:

- Internships from about 4 weeks to 6 months
- Selected topics for Bachelor and Master theses in cooperation with host universities
- Work in latest technology labs and workshops
- Highly diversified work fields covering all areas of water and process treatment
- Mentoring during the entire internship period
- Financial compensation (depending on qualification, duration, and program)

Examples of working areas:

- Scaling
- Corrosion
- (Bio)fouling
- ... and many more
