Installation & Configuration Guide: *OpenConnect VPN* Apple MacOS

1) Download the OpenConnect VPN Client for MacOS. You can find the current version as download here: https://github.com/openconnect/openconnect-gui/releases

Directlink for OpenConnect VPN v1.5.3 for MacOS: <u>https://github.com/openconnect/openconnect-gui/releases/download/v1.5.3/openconnect-gui-1.5.3.high_sierra.bottle.tar.gz</u>

2) By double-clicking on the downloaded file or right-clicking "open", the software is unpacked.

Schreibtisch			

You can rename the unzipped folder "openconnect-gui" and then move it to the "Programs" folder, for example.

3) In the unzipped folder you will find the startup file "*OpenConnect-GUI*" (see screenshot) with which you can start the VPN client.

In the following window you need to specify the password to your Mac user account.

Installation & Configuration Guide: *OpenConnect VPN* Apple MacOS

4) After the program window opens, click on the gear icon and then on "New profile (advanced)".

Main	VPN Info			
	Server:		0	Ś.
		😪 Connect	📃 View log	New profile (advanced)
				Edit selected profile
				Remove selected profile
1				

The settings for the VPN connection must be entered as follows and finally saved by pressing "Save":

Edit

Name	UDE	
Gateway	openconnect.uni-due.de

Name:

Name for the VPN connection; for example: "UDE VPN

Gateway:

openconnect.uni-due.de

Username:

Your UNIKENNUNG / Uni ID

Installation & Configuration Guide: *OpenConnect VPN* Apple MacOS

5) Finally, press the "Connect" button and, when prompted, enter the password of your Unikennung and confirm with "OK":

6) During the first connection you will see the following message - confirm it with "Accurate information":

You have no guarantee t	hat the server is the computer you thir	nk it is.
If the information provid	led bellow is valid and you trust this ho	st, hit
'Accurate information' t If you do not trust this h	o remember it and to carry on connecti ost,hit Cancel to abandon the connect	ng. ion.
'Accurate information' t If you do not trust this h Host: openconnect.uni-due.dk sha256:0ddd275e2c41a2e84	o remember it and to carry on connecti ost,hit Cancel to abandon the connecti a aaacc5f1bd40b2185f23848606f36ce49a21e19	ng. ion. 14e40dba

The connection is now established, and the lock icon changes color from red to green.

You are now connected to the VPN and can access the available resources.

- 7) To disconnect, click on "*Disconnect*" in the OpenConnect window.
- 8) Alternatively, in the menu bar at the top of the screen, leftclick on the connector icon and then on "Disconnect" (see screenshot on the right).
