

## ImPUISe Spring School 2024: Sustainable Agro-Food Supply Systems *Innovation Potential, Challenges, Opportunities*

Are you passionate about sustainability in agricultural food supply chains? Join us at the **ImPUISe Spring School 2024**, hosted by the **Centre for Logistics and Traffic (ZLV)** at the **University of Duisburg-Essen (UDE)**, Germany, to embark on a transformative learning journey. 🌍

The **ImPUISe Spring School 2024** was born from the visionary of the **ImPUISe** project funded by the **German Federal Ministry of Education and Research**, under the umbrella of the **Partnership for Research and Innovation in the Mediterranean Area (PRIMA)** of the **European Commission**.

📅 **When:** April 29 to May 6, 2024. 📍 **Where:** Duisburg, Germany

### 🌱 **What to Expect?**

- **Interdisciplinary Exploration:** Engage in the complexities of sustainable food systems with a dynamic consortium of academic and industrial participants from diverse backgrounds and nationalities.
- **Cutting-Edge Insights:** cutting-edge research and innovation approaches to enhance sustainable agricultural production. Learn from experts through lectures, workshops, and case studies.
- **Cultural Immersion:** Immerse yourself in designing innovative supply chains for agricultural by-products, taking into account socio-economic factors, digitization, and circular economy principles.
- **Field Trips:** Explore the vibrant surroundings of Duisburg and experience the practical significance of sustainable supply chains during site visits at selected companies.

### 🌍 **Why to attend?**

- **Global Challenges, Local Solutions:** Gain a comprehensive understanding of entire food supply chains from farm to fork, logistics services and transport-related energy consumption, impacting food security.
- **Strategic Sustainability:** Gain insights into resilience and sustainability challenges and understand complex models that capture extended supply chains.
- **Strategic Thinking:** Explore the long-term implications of strategic decisions on food security, supply chains, and circular economy practices.
- **Equip yourself:** Acquire the skills, tools, and knowledge needed to drive positive change.

### 🎯 **Participation:**

- Download the application form [here](#).
- 25 participants from **Egypt, Algeria, Iraq, Yemen, Jordan, Lebanon, Libya, Morocco, Sudan, and Tunisia** will receive financial support from **DAAD** to cover expenses for flight, accommodation, and catering.
- Participants will be selected based on a holistic review of their applications, considering the potential impact of the Spring School on the applicant's career and their potential contributions to the field of sustainable agro-food supply chains.

**Don't miss this opportunity to be part of a transformative learning experience.  
Let's cultivate a greener, more resilient future together! ✨**
