

# General Information

## Topic

The 17<sup>th</sup> German Peptide Symposium 2026 is an open-topic conference for all aspects of modern Peptide Chemistry. The symposium will feature plenary and keynote lectures, and poster sessions, providing a platform for early-career scientists and established experts to exchange knowledge, discuss the latest developments in peptide science and explore potential applications in biomedicine, biotechnology, and materials sciences.

## Poster Session

The symposium's poster sessions will provide an opportunity for early career researchers to present their work. We encourage participation, and the best posters will be awarded.

## Registration

Registration is required via
