

General Information

Topic

The 17th German Peptide Symposium 2026 is an open-topic conference for all aspects of modern Peptide Chemistry. The symposium will feature plenary and keynote lectures, and poster sessions, providing a platform for early-career scientists and established experts to exchange knowledge, discuss the latest developments in peptide science and explore potential applications in biomedicine, biotechnology, and materials sciences.

Poster Session

The symposium's poster sessions will provide an opportunity for early career researchers to present their work. We encourage participation, and the best posters will be awarded.

Registration

Registration is required via
www.uni-due.de/17gps

Organizing Committee

Hans-Dieter Arndt | Jena University | Organic Synthetic Chemistry

Malte Gersch | TU Dortmund | Chemical Biology

Ute Hellmich | Jena University | Biostructural Interactions

Markus Kaiser | UDE | Chemical Biology

Norbert Sewald | Bielefeld University | Bioorganic Chemistry and Chemical Biology

Contact and Local Organization

Maike Müller
