This workshop provides its participants with an understanding and practical skills on how female scientists can support each other in a mentorship setting and enhance their work in an advanced stage of writing and research.

In individual, pair and group sessions with interactive exercises you will discuss:

• Chances and challenges of peer mentoring
• Fair feedback, respectful ways of communication and how to support
• The limits of the scientific mentoring relationship
• The pressure and management of time constraints
• The struggle with work-life-balance
• Cooperation & competition

From Woman to Woman –
Peer Mentoring for Female Researchers

Date: 15.11.2022
Time: 9.00 am – 05.00 pm    Place: Zoom

Dr. Imke Lode
ProSciencia

About the trainer: Dr. Imke Lode studied media studies, media & social psychology, American literature and modern German literature at the Technical University of Berlin. She gained extensive teaching and research experience at NYU, Columbia University and the Universities of Magdeburg and Lübeck. Throughout her academic career, she worked on interdisciplinary questions at the intersection between the humanities and natural sciences / technology.
