

Sunday  
**May 14**  
2023

11:00 AM

## IMMUNOLOGY & REGENERATIVE BIOLOGY COLLOQUIUM

# The behavior and influence of neutrophil granulocytes under physiological and pathological conditions

**Prof. Matthias Gunzer, Ph.D**

**Leibniz- Institut für Analytische Wissenschaften - ISAS - e.V, Dortmund, Germany**  
&

**Institute for Experimental Immunology and Imaging, University Hospital,  
University Duisburg- Essen, Essen, Germany**

Prof. Gunzer is a trained biochemist and experimental immunologist. His scientific interest focuses on the function of neutrophil granulocytes of mice and humans under healthy conditions and in sterile and infectious inflammation. To study that Prof. Gunzer is employing a spectrum of methods including advanced microscopy, mass spectrometry and genetically modified animals.

**Candiotti Auditorium, Max and  
Lillian Candiotti Building**

**Light refreshments will be served in  
the lobby at 10:45**

**More information and accessibility issues: Lili Kasumov - [lili.kasumov@weizmann.ac.il](mailto:lili.kasumov@weizmann.ac.il)**
