

Workshop Overview

November 8 to 10, 2021

25. German Female Physicists' Conference 2021

During our conference you can decide whether you want to attend the scientific lectures or visit one of the online workshops. We have deliberately chosen short workshops so that you can remain flexible in your time. To give everyone the opportunity to participate, one workshop can be attended per participant. If necessary, remaining places will be announced in time.

You can register for the workshops via your conference registration in conftool. The workshops are free of charge.
