

AquaSmarTech offered with the support of the DVGW the unique opportunity to visit IFAT2022 in Munich and enjoy the beauty of Munich in a 2-day trip.

We provided students free tickets to IFAT. The trip was completely sponsored by DVGW, so the students did not need to pay anything for train and accommodation. Many thanks for this!

The AquaSmarTech group with 20 students in total visited one of the biggest water and wastewater exhibitions in the world. It was absolutely great and even more memorable with our fun moments while sightseeing in Munich.
