

WATER GRADUATE SCHOOL COLLOQUIUM

WINTER SEMESTER 2025/2026

Kristin Peters

Hydrology & Water Resources Management, CAU

My PhD in hydrology at Kiel University and RESIST: what I learned
and what I found

Jens Kiesel

Stone Environmental

A career case study: Building bridges between research and
consulting

Wednesday,
19.II.2025
4 pm

Wednesday,
21.01.2026
4 pm

POSTPONED

Isabel Halbhuber

Instrumental Analytical Chemistry, UDE

PFAS-Analysis: CAT-Method as a promising sum parameter

Dr. Jochen Türk

Cooperation Laboratory of the EGLV

Challenges posed by new regulatory requirements for PFAS analysis
and the assessment of wastewater and water pollution

Wednesday,
18.02.2026
4 pm

Wednesday,
18.03.2026
4 pm

Nehle Lüttich

Eukaryotic Microbiology, UDE

Parasitic protists in Arctic benthos organisms - expansion of LTER
HAUSGARTEN diversity - a first insight

Dr. Christina Meinert-Berning

Ruhrverband

N.N.

WATER GRADUATE SCHOOL COLLOQUIUM

WINTER SEMESTER 2024/2025

Sarah Rockel

Instrumental Analytical Chemistry, UDE

2D-LC-IRMS - New possibilities for stable isotope analysis in aqueous samples

Frank Steiner

Thermo Fisher Scientific

Increasing the productivity of HPLC method development – Opportunities to get ready for the lab of the future

Wednesday,
18.12.2024
4 pm

Wednesday,
15.01.2025
4 pm

Henrike Walther
Urban Water Management, Hydrology and Hydraulic Engineering, HRW

The BoRSiS Project: Balancing Blue-Green Infrastructure for Urban Resilience

Christoph Bennerscheidt

European Association for Ductile Iron Pipe Systems

Background on root growth in urban soils for enhancing tree growth in cities

NEW

Wednesday,
26.02.2025
4 pm

Nazmun Nahar

Aquatic Ecology, UDE

Physiological responses of benthic macroinvertebrates under the influence of parasites and herbicide metazachlor

Nicolai Bätz

Emschergenossenschaft/Lippeverband

Extreme droughts and heavy rainfall - What does an adapted landscape water regime look like? - First results of the BMBF project KliMaWerk

Wednesday,
16.04.2025
4 pm

Christian Schlaudmann

Aquatic Ecology, UDE

Swimming against the current, Fischliftsystem Baldeney

Markus Kühlmann

Ruhrverband

Fisheries management and fish ecology in reservoirs and the Ruhr system

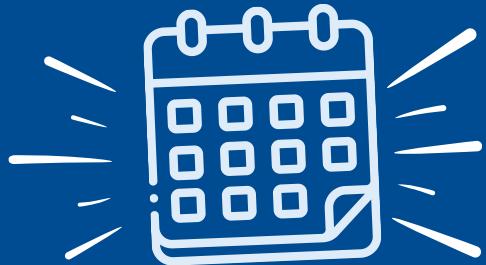

Hybrid Event: S05 R03 H18

Special Talks

WATER GRADUATE SCHOOL

July 9th, 2024
4 pm

visiting us from the White House is...

Dr. Karen Andrade

A Journey in Interdisciplinarity: Science, Policy and Environmental Justice

The talk will describe how her career has traversed many diverse disciplines, practices and environments with the goal of bringing the benefits of science to the communities that need it most.
