

Lockers

Lockers in the Duisburg-Essen University Library Conditions of use

1. According to § 5, subsection 4 of the Regulations on Administration and Use in the version of 23/09/2005, "Bags, coats, umbrellas, luggage and similar objects must not be brought into the Library." There are lockers available for storing such objects.
2. Every locker can be closed by the insertion of a coin or a chip available for 2.00 € in library. When opening the locker, the deposit will be automatically returned.
3. In order to prevent misuse by occupying a locker for a long period and in order to be able to offer a locker to all library users, the use of a locker is only permitted for the duration of your visit to the library. Every user is obliged to clear the locker after leaving the library.
4. Lockers which are found to be locked outside the opening hours of the University Library will be opened on the next working day. The deposit will be retained.
5. You have to inform the library staff immediately if the locking mechanism does not work properly. You are forbidden to make any unauthorized attempts to open it yourself. The user is liable for any damage to the locking mechanism caused by improper use.
6. You have to inform the library staff immediately if you lose a locker key. A notice of loss has to be completed. A user losing a key is liable for any damage related to this loss.
7. The University accepts no liability for any objects kept in the lockers in case of loss or damage.
8. By using a locker, the user recognises these conditions of use as binding.
