

JOURNALCLUB Aug-Dez 2012 IM MOTORIK-LABOR

Der Journal-Club findet montags von 17.30 – 18.30 Uhr
im Motorik-Labor statt.

13.8.	Markus Thürling presents Cooper et al. <i>Distinct critical cerebellar subregions for components of verbal working memory</i> . Neuropsychologia 2012
27.8.	Roxana Burciu presents Henley et al. <i>Pitfalls in the use of voxel-based-morphometry as a biomarker: examples from Huntington disease</i> . AJNR 2010
10.9.	Roxana Burciu presents data of the project <i>Motor adaptation study in patients with acute and subacute cerebellar stroke</i> .
24.9.	Johanna Reinold presents Izawa et al. <i>Cerebellar contributions to reach adaptation and learning sensory consequences of action</i> . J Neurosci 2012
8.10.	Andreas Thieme and Julia Galuba present data of the project <i>Visual threat responses in patients with different cerebellar disorders</i> .
22.10.	Roxana Stefanescu presents Diedrichsen et al. <i>Advances in functional imaging of the human cerebellum</i> . Curr Opin Neurol 2010
12.11.	Moritz Dohnalek presents Miyai et al. <i>Cerebellar ataxia rehabilitation trial in degenerative cerebellar disease</i> . Neurorehab Neural Repair 2011
26.11.	Sarah Jansen presents Sultan et al. <i>Unravelling cerebellar pathways with high temporal precision targeting motor and extensive sensory and parietal networks</i> . Nature communications 2012
10.12.	Roxana Stefanescu and Moritz Dohnalek present data of the project <i>7T fMRI of the dentate nucleus in FRDA, SCA3 and SCA6</i> . ** im Anschluss Weihnachtsfeier **

Alle sind herzlich willkommen.

Dagmar Timmann-Braun und Marcus Gerwig
